

# EGFS-PUSH Perforated grille with filter and internal frame 15 mm

### Description

Exhaust grille with perforated panel, with double frame (15 mm internal) and hinge opening and push-pull system for easy filter installation and replacement.

### Characteristics

Aluminium perimeter frame.  
Galvanised steel panel.  
Finish: painted white RAL9016.  
Installation: resting on false ceiling structure.  
Filter: COARSE class (G2) thickness 12 mm.  
Opening/closing: with push-pull system.

The perforated mesh is made according to the following specifications:  
-60° alternating round holes;  
-empty/full ratio 46%;  
-diameter of holes 5mm;  
-distance between centres 7mm.

### Use

Grille for air exhaust in rooms where pre-filtration is recommended.  
Initial pressure drop lower than 40Pa with 1.5 m/s speed on the filter.

### On request

Painting in different RAL colours.

### Operating data

An air velocity on the filter of 1.5 m/s is recommended to contain pressure drops and maintain filtration efficiency; the flow rate data in the table refers to the grille with the filter.  
All measurements are expressed in mm

model	external frame dimensions	effective cross-section of the filter	face velocity on the filter		air flow rate
	mm		m/s	m <sup>3</sup> /h	
EGFS-PUSH	595x595	0,238	1,5	1285	1713
