

EFPLZ-S pannelli filtranti minipieghe

Descrizione

Pleated filter panel in polypropylene fibre with progressive density.

Caratteristiche

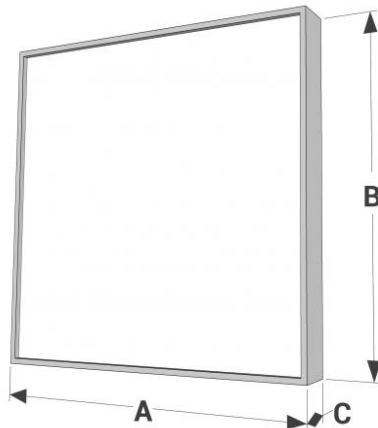

Galvanised steel frame.
Polypropylene filter media.
Low pressure drop.
High efficiency with reduced thickness.
Recommended final pressure drop 300 Pa.

Impiego

Pre-filtration on absolute filters.
Air treatment units.
Filtration and ventilation systems.

A richiesta

Filters with non-standard dimensions.
