

SILENT Polyester polyurethane

Description :

Polyurethane foam based on polyester, flexible, with open cells, used for sound absorption.

Use :

On air ducts, walls, equipments and wherever needs to reduce the noise.

models :

KP: with embossed black polyolefin finish film

Characteristics :

- Color: Grey
 - Operating temperature from -5 ° C to + 65 ° C
 - Density: 25 kg / m³
 - Regular cellular structure
 - Good resistance to airflow resulting in better absorption acoustic
 - Resistance to organic solvents
 - Good tensile and tear strength
 - Good resistance to aging.
- The particular formulation of the polyester-based foam allows to pass the fire behavior test FMVSS MOTOR VEHICLE SAFETY Std 302, with all the thicknesses proposed.
