

EDU/S - EDU/SM Long range nozzle diffusers with damper

Description

Long range aluminium diffusers, adjustable with a max. angle of 30°.

Characteristics

Material: aluminium.
 Finish: anodised aluminium.
 Installation: with flange (on duct) or with fitting (on flexible duct).
 Installation height between 3 m and 30 m depending on the model.

Models

EDU/S Long range nozzle diffusers with damper.
 EDU/SM Long range nozzle diffusers with damper with set-up for motor.

Use

Rooms with very high ceilings or where a long and/or targeted air throw is needed.

On request

- Servomotors for EDU/SM: the servomotor is supplied disassembled from the long range diffuser (installation by the customer).
- Screw cover.
- With rear swirl (throw reducer).
- Fitting for flexible duct.
- Fitting for circular duct.
- RAL painting on request.

Dimensions:

all dimensions are expressed in mm

Operating data:

Vk: effective speed (m/s)

m³/h: flow rate

Pa: pressure drops in Pascal

L(m): air throw in metres calculated on ceiling installation, terminal velocity 0.25 m/s

dB(A): noise level

From model 40 to 200 made with central cone, model 230 without central cone

Swirl deflector

The swirl deflector installed at the back of the nozzle diffuser generates a rotary motion that increases induction and reduces the throw of the diffuser by 40% and is particularly suitable for the supply of high air flow rates in medium-sized rooms as it prevents sensitive air currents in the occupied area.
